EMERALD GODDESS — PREMIUM PLANT TONIC

# SAFETY DATA SHEET

EMERALD GODDESS® — PREMIUM PLANT TONIC

## 1. IDENTIFICATION

**Product name** : Emerald Goddess  
**Chemical family** : Nitrates and inorganic minerals in aqueous solution  
**Material uses** : Hydroponic plant nutrients  
**Supplier/Manufacturer** : Emerald Harvest  
1399 Corporate Center Parkway  
Santa Rosa, CA 95407 USA  
866-325-8235  
**Emergency contact** : CHEMTREC, U.S. : 1-800-424-9300  
International: +1-703-527-3887 (collect calls accepted)

## 2. HAZARD(S) IDENTIFICATION

### Emergency Overview

**Physical State** : Liquid  
**Color** : Green  
**Odor** : Earthy  
**Signal Word** : Warning  
**Hazard statements** : May cause eye irritation  
**Precautionary measures** : Avoid contact with eyes. Wash thoroughly after handling.  
**OSHA/HCS statues** : While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.  
**Routes of entry** : Dermal contact. Eye contact. Inhalation. Ingestion.

### Potential acute health effects

**Inhalation** : No known significant effects or critical hazards.  
**Ingestion** : No known significant effects or critical hazards.  
**Skin** : No known significant effects or critical hazards.  
**Eyes** : Slightly irritating to the eye.

### Potential chronic health effects

**Chronic effects** : No known significant effects or critical hazards.  
**Carcinogenicity** : No known significant effects or critical hazards.  
**Mutagenicity** : No known significant effects or critical hazards.  
**Teratogenicity** : No known significant effects or critical hazards.  
**Developmental effects** : No known significant effects or critical hazards.

VERSION : 00001  
SDS DATE : 2015/11/13

EMERALD GODDESS — PREMIUM PLANT TONIC

- Fertility effects : No known significant effects or critical hazards.
- Target Organs : No known significant effects or critical hazards.

**Over-exposure signs/symptoms**

- Inhalation : No known significant effects or critical hazards.
- Ingestion : No known significant effects or critical hazards.
- Skin : No known significant effects or critical hazards.
- Eyes : Symptoms may include: irritation, watering, redness
- Medical conditions aggravated by overexposure : None known.

**3. COMPOSITION/INFORMATION ON INGREDIENTS**

Name	CAS number	%
Monopotassium phosphate	7778-77-0	0.5-5
Potassium nitrate	7757-79-1	0.5-5
Urea	57-13-6	0.5-1

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

**4. FIRST-AID MEASURES**

- Eye contact** : Check for and remove any contact lenses. Immediately flush eyes with plenty of water for at least 20 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.
- Skin contact** : In case of contact, immediately flush skin with plenty of water for at least 20 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention immediately.
- Inhalation** : In case of contact, immediately flush skin with plenty of water for at least 20 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention immediately.
- Ingestion** : Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention immediately.
- Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.
- Notes to physician** : No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

**5. FIRE-FIGHTING MEASURES**

- Flammability of the product : Not flammable

**Extinguishing media**

- Suitable** : Use extinguishing agent suitable for surrounding fire.
- Not suitable** : None known
- Special exposure hazards** : No special precaution is required
- Hazardous thermal decomposition products** : Decomposition products may include the following materials: sulfur oxides, phosphorus oxides, metal oxide/oxides
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

**6. ACCIDENTAL RELEASE MEASURES**

- Personal precautions** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see Section 8).
- Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
- Methods for cleaning up** :
- Small spill** : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
- Large spill** : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

**7. HANDLING AND STORAGE**

- Handling** : Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse

**Storage**

container.

- : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

Consult local authorities for acceptable exposure limits.

**Recommended monitoring procedures**

- : If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

**Engineering measures**

- : No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

**Hygiene measures**

- : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Personal protection****Respiratory**

- : Use a properly fitted, air-purifying or supplied air respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

**Hands**

- : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

**Eyes**

- : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.

**Skin**

- : Personal protective equipment for the body should be selected based on

VERSION : 00001  
SDS DATE : 2015/11/13

EMERALD GODDESS — PREMIUM PLANT TONIC

the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

**Physical state** : Liquid  
**Color** : Green  
**Odor** : Earthy  
**pH** : 4.5 to 6.5  
**Melting/freezing point** : Not available  
**Relative density** : Not available  
**Solubility** : Soluble

## 10. STABILITY AND REACTIVITY

**Chemical stability** : stable  
**Conditions to avoid** : Not available  
**Incompatible materials** : Reactive or incompatible with the following materials: oxidizing materials, acids and alkalis.  
**Hazardous decomposition products** : Not available  
**Possibility of hazardous reactions** : Under normal conditions of storage and use, hazardous reactions will not occur.

## 11. TOXICOLOGICAL INFORMATION

### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
Monopotassium phosphate	OSHA PEL	Rabbit	7950 mg/kg	
Potassium nitrate	OSHA PEL	rat	3750 mg.kg	
Urea	OSHA PEL	rat	15 g/kg	

### Chronic Toxicity

#### Irritation/Corrosion

**Skin** : No data available  
**Eyes** : No data available  
**Respiratory** : No data available

VERSION : 00001

SDS DATE : 2015/11/13

EMERALD GODDESS — PREMIUM PLANT TONIC

**Sensitizer**

Skin : No data available

Respiratory : No data available

**Carcinogenicity**

There is no data available.

**Mutagenicity**

There is no data available.

**Teratogenicity**

There is no data available.

**Reproductive toxicity**

There is no data available.

**12. ECOLOGICAL INFORMATION**

Ecotoxicity : No known significant effects or critical hazards.

**Aquatic ecotoxicity**

Product/ingredient	Result	Species	Exposure
None			

**Persistence/degradability**

**13. DISPOSAL CONSIDERATIONS**

Waste disposal :

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Refer to section 7. HANDLING AND STORAGE and section 8. EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

**14. TRANSPORT INFORMATION**

Regulatory Information	UN number	Proper shipping name	Classes	PG*	Label	Additional information
DOT Classification	Not listed					
IMDG Class	Not listed					
IATA-DGR Class	Not listed					

PG\*: Packing group Exemption to the above classification may apply.

EMERALD GODDESS — PREMIUM PLANT TONIC

**15. REGULATORY INFORMATION**

- HCS Classification : Not regulated.
- U.S. federal regulations : TSCA 8(a) CDR Exempt/Partial exemption: Not determined  
United States inventory (TSCA 8b): All components are listed or exempted.
- Clean air act section 112 (b) : Not listed  
Hazardous Air Pollutants (HAPs)
- Clean air act section 602 : Not listed  
Class I substances
- Clean air act section 602 : Not listed  
Class II substances
- DEA list I chemicals : Not listed  
(Precursor chemicals)
- DEA list II chemicals : Not listed  
(Essential chemicals)

**SARA 313**

	Product name	CAS number	Concentration
Form R – Reporting requirements	None		
Supplier notification	none		

SARA 313 notifications must not be detached from the SDS and any copying and redistribution of the SDS shall include copying and redistribution of the notice attached to copies of the SDS subsequently redistributed.

**State regulations**

- (1)Massachusetts : Not listed
- (2)New York : Not listed
- (3)New Jersey : Not listed
- (4)Pennsylvania : Not listed

**California Prop.65**

WARNING: This product contains less than 0.1% of a chemical known to the State of California to cause cancer.

Ingredient name	Cancer	Reproductive	No significant risk level	Maximum acceptable dosage level
none				

**16. OTHER INFORMATION**

Label requirements : MAY CAUSE EYE IRRITATION.

**Hazardous Material Information System (U.S.A)**

- Health : 1
- Flammability : 0
- Physical hazards : 0

EMERALD GODDESS — PREMIUM PLANT TONIC

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings are not required on MSDSs under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.
