

ona block

Large performance.
Small size.

ona
odor neutralizing agent

The **Ona block** is a small powerhouse when it comes to odor control. It can be put anywhere and forgotten until odors return.

Put in your gym bag, closet, car, bathroom, office, garbage area, etc. Wherever odors are prevalent. Simply remove lid and place in desired location.

Ona blocks are comprised of a secret blend of 32 essential oils. They are non-toxic, all-natural and safe to use around people, pets and plants. **Ona blocks** are a fast way to fight against odors at their source. Simply open and expose to the air or remove the block from the container. Duration of the block will vary but it will be effective for about 4-6 weeks relative to airflow and environment (temperature, humidity) around the block. To limit the amount of odor control and extend the life of the block, drill holes through the lid.

Introducing the all new **Apple Crumble**, the first of Ona's new Black Label Series. A great addition to an unbeatable team of Fresh Linen, PRO and Polar Crystal.

Eliminate odors, naturally!
